

# Undo Data Blunders

SkyKick Cloud Backup is the "Undo Button" for lost, stolen, corrupt or deleted Microsoft 365 data.

**Microsoft 365** powers your productivity. Protect it with SkyKick Cloud Backup, a true set-it-and-forget-it cloud backup solution that provides comprehensive data protection and stress-free recovery of data across Exchange, OneDrive for Business, SharePoint, Microsoft Teams, and more.

## Get peace of mind and protect your business with SkyKick Cloud Backup.

Microsoft 365 data is secured within its data centers. However, this does not protect your business data from permanent loss due to ransomware attacks, malicious deletion, corruption, or human error. By continually backing up your Microsoft 365 data, SkyKick Cloud Backup provides the protection you need against the damaging impact of data loss to productivity, revenue, reputation, and compliance.

### Live in Minutes

SkyKick Cloud Backup requires little configuration, runs in the background, and needs no on-going IT administration.

### Unlimited Backup

Your data is only going to grow. With SkyKick Cloud Backup, you get unlimited storage and retention at no extra cost.

### Rapid Recovery

Advanced search and one-click restore gets data back quickly so your team can stay productive.

“ We would have been in real trouble without a backup solution for Microsoft 365. We would have likely had to pay a \$15,000 ransom, with no guarantee of getting our data unencrypted.”

*Manager at Commercial Real Estate Firm protected by SkyKick Cloud Backup*

1 hr of downtime costs a business with fewer than 500 employees \$8,600 per hour on average.<sup>1</sup>

**Bounce back fast with SkyKick Cloud Backup!**

## Autonomous Backups

You have plenty to do without having to worry about backing up data. Cloud Backup provides continuous data protection without any action required.

## Robust Security

Your data never leaves the Microsoft cloud environment where it remains encrypted and protected by the industry-leading, multi-layered security of Microsoft Azure.

## Multiple Backups Per Day

Keep up with the speed and evolution of your business data with up to six daily snapshots.

## Compliance

Meet ever-evolving industry standards and regulations like ISO 27001, GDPR, and HIPAA and leverage data centers in dozens of countries to comply with government requirements.

## Fast Search and Recovery

Use advanced search and intuitive interface to quickly find and restore lost data.

## Hybrid Work Ready

With hybrid work, business data is rapidly moving to Microsoft Teams. To ensure this data is protected, Cloud Backup provides the most comprehensive protection of Teams.

## Complete data protection for Microsoft 365
